Present Condition Bad

Materials of Construction Frame

Other Existing Records None

Additional Data An important place at the time of its building. The Douglas family were planters and merchants - people of wealth and influence in politics and public affairs.

Of architectural interest on account of its exterior detail which is excellent. The detail is fine and clear and in good scale. Of particular interest is the cornice. The scale and placing, too, of the windows is well handled. In general it recalls the classic era worked out in frame with a good sense of values.
